

Sleep & Health Seminar (SPV0Y040)
Fall Semester 2018
C-Nr. 4875

DATE	TIME	VENUE	SPEAKER	TITLE	HOST
07.09.2018	12.15 - 13.15	HAL E3 USZ	Sarah Schoch Baby Sleep Lab Dept. of Pulmonology University Hospital Zurich	Actimetry in infant sleep research: an approach to streamline algorithms and facilitate comparability	SK
21.09.2018	12.15 - 13.15	HAL E3 USZ	Samantha M. Riedy Washington State University Spokane WA, USA	Deploying Biomathematical Models in Fatigue Risk Management Systems	PA
24.09.2018	16:00 - 17:00	UZH Campus Irchel, 17H05	Vladyslav Vyazovskiy University of Oxford (UK)	Local and global regulation of cortical oscillations in NREM and REM sleep	PA
05.10.2018	12.15 - 13.15	HAL E3 USZ	Thomas Gaisl Dept. of Pulmonology University Hospital Zurich Nora Nowak ETH Zurich	Sleep-Induced Metabolism Monitored by Breath Analysis	SB
26.10.2018	12.15 - 13.15	UZH Campus Irchel, 17H05	Christian Meisel Harvard Medical School (USA), University of Dresden (D)	Sleep restores optimal information processing in cortical networks - neurophysiological evidence from humans and rodents	PA
02.11.2018	12.15 - 13.15	HAL E3 USZ	Konstantinos Kompotis Center for Integrative Genomics University of Lausanne	Rocking mice: a model for the effects of mechanosensory stimulation on sleep	PA
16.11.2018	12.15 - 13.15	HAL E3 USZ	Eva Winnebeck Human Chronobiology Institute of Medical Psychology Ludwig Maximilian University, München	Human sleep ecology - investigating the temporal structure of sleep in real life and large numbers	SK
21.11.2018	12.15-13.15	HAL E3 USZ	Josiane Broussard Colorado State University, USA	Effects of insufficient sleep and circadian misalignment on peripheral metabolic tissues	SB
06.12.2018	Whole-Day Event	Alte Anatomie, USZ	See separate program	See separate program	

SK / Salome Kurth
PA / Peter Achermann
SB / Steven Brown
EW / Esther Werth
